## Multiple Tenure-Track Faculty Positions in Applied Health Science

The Indiana University School of Public Health - Bloomington (SPH-B) invites applications for multiple tenure-track faculty positions in the Department of Applied Health Science. This is an open-rank search and applicants at all levels (assistant, associate, or full professors, are welcome. SPH-B seeks individuals who will contribute scientific excellence through rigorous research and teaching in support of our mission of preventing disease and promoting the health and well-being of individuals, families, and communities. These 10-month appointments would ideally start August 1, 2022, although an earlier or later start date is negotiable. Applications received by February 1, 2022, will receive full consideration, and application will be accepted until the positions are filled.

A member of the prestigious Association of American Universities (AAU) since 1909, Indiana University prides itself in offering outstanding academics grounded in world class research and vibrant campus life. The School of Public Health-Bloomington is located on the flagship campus of Indiana University and is comprised of over 200 faculty across five departments. The Department of Applied Health Science offers a bachelor's degree in applied health science with five areas of focus: dietetics (ACEND accredited), human development and family studies, nutrition science, safety, and youth development. The department additionally offers a Bachelor of Science in Public Health degree in Community Health, a Master of Public Health and Master of Science, and a doctoral degree in Health Behavior. A new Ph.D. in Nutrition has been approved and is currently being conceptualized. The Department of Applied Health Science unites a multidisciplinary faculty of over 50 tenure and non-tenure track faculty who specialize in nutrition and dietetics, social and behavioral science, opioids, addictions, and substance abuse prevention, sexual and reproductive health, human development and family studies, safety, and maternal and child health. Departmental faculty received more that \$12.8M in external funding in FY 2020.

**Responsibilities:** Tenure-track faculty in the Department of applied Health Science are expected to substantially contribute to the overall academic excellence of the department by fostering and maintaining a robust research portfolio; pursuing and managing extramural research funding and support; teaching and mentoring students at the undergraduate and/or graduate level as designated by the department chairperson; and actively participating in the overall research and teaching mission of the department, school, and university. Areas of special interest include, but are not limited to nutrition and dietetics, social and behavioral science, opioids, addictions, and substance abuse prevention, sexual and reproductive health, human development and family studies, safety, maternal and child health, and global public health. All research areas related to health will be considered, with preference given to research that is collaborative, synergistic with other SPH-B and Indiana University faculty and aligns with major funding priorities. All faculty members are expected to build effective collaborations with other faculty members in the department, school, and university.

**Qualifications:** Candidates must hold a doctoral degree or professional doctorate (e.g. Ph.D., D.P.H., M.D.) from a field related to health from an accredited educational institution. A firm commitment to the role of diversity in all aspects of research, education and service is essential. Candidates must have teaching experience at the graduate or professional level. Good interpersonal skills, effective communication skills, and the ability to work cooperatively and congenially within a diverse faculty are required. Leadership skills and vision for enhancing the academic components of an interdisciplinary department are essential. Candidates for associate and full professor positions must also demonstrate a record of scholarly achievement appropriate for a senior career level, including extramurally funded research as a corresponding principal investigator, current funding or strong potential to secure external funding, and experience leading sizeable research initiatives. These positions are located on the campus of Indiana University, Bloomington (IUB) in Bloomington, Indiana, and successful candidates are expected to work on the IUB campus to allow full engagement with the department, school, campus, and community.

**Application Procedure:** Please provide a 1) curriculum vitae, 2) cover letter summarizing your qualifications and interest in the position, 3) research statement 4) statement of teaching interests, and 5) diversity statement. Additionally, please provide a list of six (6) references (minimum of three references for the tenure-track assistant-associate professor rank); references will be contacted if you are selected for an interview. Interested candidates should submit applications at: <https://indiana.peopleadmin.com>. Questions about the PeopleAdmin application procedure may be directed to [dwarcher@iu.edu](mailto:dwarcher@iu.edu) or via postal mail at SPH-B APH Search & Screen Committee, School Public Health-Bloomington, Indiana University, 1025 East 7th Street, Bloomington, IN 47405-4801. Questions regarding the position may be directed to Eric Walsh-Buhi, Chair, [erwals@iu.edu](mailto:erwals@iu.edu), Carrie Docherty, Executive Associate Dean, [cdochert@indiana.edu](mailto:cdochert@indiana.edu), or David B.
